TOUR 2014

Marc Perrenoud, piano // Marco Mueller, bass // Cyril Regamey, drums

On Vestry Lamento, its third album, this piano trio just slays it. This is a band of unmatched power, technique and taste. If you ever wonder what can be done on the piano, this sprint is all you need to hear. I have one favor to ask: Would someone please book this band for a tour of the States? We want to see them live!
